Smoke- and Tobacco-Free UCSB

Beginning Jan. 1, all UC campuses, labs and centers are smoke and tobacco free. The new policy demonstrates UC's commitment to providing a healthy environment for faculty and staff members, students and visitors.

At UCSB, the use of all tobacco products — smokeless or otherwise — is prohibited in all indoor and outdoor spaces managed by the campus. That includes smoking (cigarettes, pipes, water pipes and hookahs), smokeless tobacco (snuff, snus and chew) and unregulated nicotine products such as e-cigarettes.

"A smoke-free and tobacco-free environment will save lives and improve the health of our community," said Chancellor Henry T. Yang. "We thank you for not smoking or using any tobacco products on campus."

More information about the policy, including the full text, is available at <http://tobaccofree.ucsb.edu/policy>. The site also provides information about resources for those who want to kick the tobacco habit.

About UC Santa Barbara

The University of California, Santa Barbara is a leading research institution that also provides a comprehensive liberal arts learning experience. Our academic community of faculty, students, and staff is characterized by a culture of interdisciplinary collaboration that is responsive to the needs of our multicultural and global society. All of this takes place within a living and learning environment like no other, as we

draw inspiration from the beauty and resources of our extraordinary location at the edge of the Pacific Ocean.
